JOHN ANTAKI

Your Wedding

Your wedding is the start to a new chapter in your life and I am here to help illustrate it. As your Photographer or Videographer, I will accompany you throughout your wedding day. I can help you stay relaxed and on time while recording every special moment so you will always remember it and the moments that may have gone unnoticed.

To the right is a photo of Anastasia on her wedding day. She has just finished reading a letter from her soon to be husband, and is steps away from seeing him for the first time in her dress.

It is very important to keep moments like these flowing so that natural emotion and mood can be captured. I help set the stage and allow my couples to be themselves and enjoy their special day together!

Your Trust

Your wedding day is one of the most exciting and important days of your life. Planning can often be overwhelming and the one thing you need to know is that everything will be okay. With my services you can rest assured that you are in good hands

John captured our wedding in September of 2019. It was very important to us to have intimate setting I have to say he struck the perfect balance! All of the videos have so much detail, yet he was never disruptive or blocking the view. I would highly recommend John and his company!! The attention to detail and professionalism were a delight to have around on our special day!!

My husband and I are BEYOND grateful for his job and his ART during our wedding day. John made us feel very calm and confident the WHOLE day. John was working all over the place and worked as a perfect team with the photographer.
